MATO 54

Quick installation railing scaffolding

With this innovative and high-quality safety product, you meet legal requirements **(TRBS 2121)** while ensuring maximum cost-effectiveness. You save 45% assembly time compared to other safety products. Along with the low investment costs, you gain a clear competitive edge.

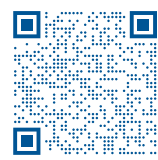

TESTED

This product complies with the applicable health and safety protection requirements within the EU and EEA.

Benefits

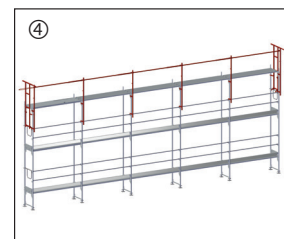

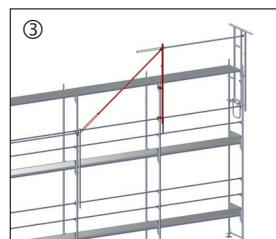

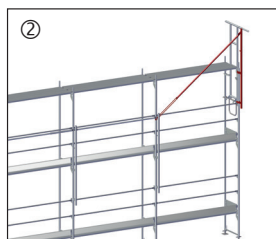

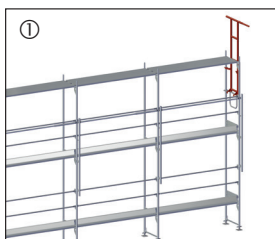

- Save time and costs thanks to faster assembly
- Lightweight thanks to high-quality aluminium construction
- DIBt approval no. Z-8.1-930
- Maximum safety when assembling and disassembling the scaffolding (TRBS 2121)
- Patent registered
- Maintenance-free (no mechanics)
- Low investment costs
- Low storage and loading volumes
- No tendon sheath inflammation

DIBt-certified
